

Solar and Roofing Services

We've got your neighborhood covered

The Smart First Step to a Successful Solar Panel Installation

When you're ready to move forward with Simple Energy, we will arrange to have your roof inspected at no cost. Our licensed roofing contractors will perform a site survey and assess everything from aging and weather damage, to roofing materials, leaks, areas missing shingles, loose materials, and more. We understand that the success of our 25 year solar warranty starts with a healthy roof.

Roofing Services We Offered

- We remove all existing roofing down to the roof sheathing
- We furnish and install new drip edge metal and underlayment in accordance with local codes
- We Install Title 24 approved architectural asphalt shingles
- We clean and haul off debris
